

FIELDPOWER

F R E E D O M O F P O W E R

You have to feel this !

That's the initial reaction of physiotherapists, top athletes, personal trainers, and others trying the FieldPower for the first time. Even sceptics have to admit it... this device offers a totally new training stimulus. **Imagine** being able to squat, pull over, step, jump, sprint and throw... slow, fast, eccentric or plyometric, or being able to do ANY other exercise with resistance for any part of the body, from any direction, with a range of movement of up to 20 meters. This is now possible! The **FieldPower** will redefine your training program. Words cannot describe what you will experience using the FieldPower, so do your customers and yourself a favour and discover everything the FieldPower has to offer.

Functional training made easy ... and more effective

The FieldPower principle delivers immediate improvement of stability, explosivity and power with low impact. Therefore, it is used by people of all levels. Click on and release within seconds and choose the resistance by just moving away from the FieldPower.
