CHANGING THE ROLLER

The roller contains fragile parts-please handle them with care.

Please take extra care when replacing the roller.

Note:Rollers that are broken or worn may cause damage to the skin.

Change the roller as needed for best results.Rollers last for a few sessions depending on frequency of use and size of area being treated.

Replace the roller when you find any defects or when you find them less effective.

Make sure the unit is turned off before replacing the roller.

1.Remove the protective cover by holding machine.

2.To remover the roller,use one hand to grip the device and push down the release button on the side of unit.amd the other hand to take the roller out.

3.Place the new roller head onto the device and push down firmly until it's in place. Check that it has been firmly installed with no signs of loose parts.

- 1.Clean unit after each use
- 2.Turn the unit off.
- 3.Remove the protective cover and the roller from the unit. Rollers can be washed under water for cleaning. Use the provided mini brush.
- 4.Rinse the roller under the tap for 5-8 seconds. Wipe the unit with a clean dry cloth.
- 5.Replace the roller and protective cover.

Do not submerge the unit into water,this may cause damage to the unit.  
The roller is water resistant,it can be rinsed under water for cleaning but it is not waterproof.
